KAROTS KORP · KAROTS DEV

Karots Suite

Shop Rules & Service Guide · version 1.4 · 2026-11-01

DRAFT for review by a Sri Lankan attorney-at-law before use. See docs/legal/README.md.

ANNEXURE "A" to the Licence and Service Agreement No. _____ dated _____ between Karots and the Shop _____

This guide is annexed to your agreement with Karots, marked "A", and forms part of it. Signing the Licence and Service Agreement means you accept it together with the terms of that agreement. It says what you get free, what is charged, how refunds work, and the few rules that keep your shop's data safe. If this guide and the agreement differ, the agreement wins.

1 · Your first year

	First 60 days	Day 61 to the end of year 1	After year 1
Use Karots Suite	**Yes**	**Yes**	**Yes, for as long as you like**
Updates	**Free**	**Free**	Not included[1]
Bugs in Karots fixed	**Free**	**Free**	Not included[1]
Remote help (see 2)	**Free**	**Free**	Charged
Personalised help (see 3)	**Free**	Charged	Charged
Visits to the shop	**2 free visits in year 1, then charged by distance**		Charged
New features, changes made for you	Always a separate paid job, quoted first		
Karots cloud backup	A separate paid service, monthly or yearly (see 5)		

[1] After year 1 your shop keeps working exactly as it is. You can ask for an update, a bug fix or help at any time as paid work, or renew for another year at the price on the Price List.

"Year 1" and "60 days" count from the day Karots Suite is installed at your shop.

2 · Free in year 1 when done remotely

Done by phone, WhatsApp or a remote session (RustDesk or similar, only when you let us in):

- ✓ How-to questions and help with problems.
- ✓ Bringing your data back from a backup (yours or Karots cloud).
- ✓ Resetting the owner's PIN when every admin is locked out.
- ✓ Moving the shop to a new computer.
- ✓ Setting up a receipt or label printer, barcode scanner or cash drawer.
- ✓ Training a new cashier or manager.

If you ask us to come to the shop for any of these, it's a visit: one of your 2 free visits in year 1, or the visit fee by distance.

3 · Personalised help

In the **first 60 days** we help you set the shop up your way at no charge: your categories, menus, prices, receipts, staff and how you work. After 60 days this kind of help is charged by how complicated the job is. We tell you the price first, and nothing is done until you agree.

4 · Always charged

- ✕ **Problems the shop caused:** deleted data, a virus, a broken, wiped or replaced computer, settings changed by someone, damage from power cuts. We fix them at the normal rate.
- ✕ **New features** or changes made only for your shop, and new plugins added later (see 6).
- ✕ **Typing in your products** (catalogue entry) or bringing in data from another system, unless agreed on the Order Details.
- ✕ **Hardware:** computers, printers, scanners, drawers, UPS, internet. We can advise, but repairs and parts are not ours.
- ✕ **Visits** beyond the 2 free ones, and all visits after year 1.
- ✕ **Anything after year 1**, unless you renew.

Paid work is quoted before we start, and paid when the job is done unless the quote says otherwise.

5 · Karots cloud backup (paid service)

- A copy of your newest backup is sent to Karots' cloud about once a day, encrypted with a key for your shop only.
- Paid in advance, **monthly or yearly**.
- If a payment is more than **7 days late**, the service is **frozen**: no new copies are sent. Copies already stored stay until their keeping time ends. Pay, and it starts again.
- Freezing never stops your till, and the backups on your own PC and USB carry on as normal.
- You can switch it off yourself on the Data page. Months already paid are not refunded.

6 · Plugins

- The plugins you start with and their prices are agreed in the Order Details.
- **Adding a plugin later:** the price on the Price List at the time. We set it up remotely for free.
- **Removing a plugin** follows the table in 7, counted from the day that plugin was installed. Its records stay in your backups.
- **Swapping a plugin** within 14 days: you pay or get back the difference in price.

7 · Stopping and refunds

Before installation: cancel and get everything back, less any costs already spent for you (written on the receipt).

After installation you may decide Karots Suite isn't for you. What Karots keeps depends on how long the shop has used it, counted from the day it was installed:

Days of use	Karots keeps
Day 1 to 7	only the installation & training fee. **The licence is refunded in full**
Day 8 to 14	the installation & training fee + **25%** of the licence price
Day 15 to 21	the installation & training fee + **50%** of the licence price
Day 22 to 30	the installation & training fee + **75%** of the licence price
After day 30	everything: no refund

- **If you paid more** than Karots keeps, we return the difference. **If you paid less** (for example only an advance), you pay the difference, and the rest of the balance is cancelled.
- The licence price is the one in the Order Details. Hardware, paid jobs already done and cloud backup months already started are not refunded.
- Tell us in writing (WhatsApp is fine). The day you tell us is the day that counts. We remove Karots Suite, and you keep a full backup of your data.
- **Examples** (licence Rs. 100,000 + installation Rs. 10,000): stopped on **day 5** with Rs. 50,000 paid: Karots keeps Rs. 10,000 and returns Rs. 40,000. Stopped on **day 10** with Rs. 50,000 paid: Karots keeps Rs. 10,000 + Rs. 25,000 = Rs. 35,000 and returns Rs. 15,000. Stopped on **day 20** with Rs. 20,000 paid: Karots keeps Rs. 10,000 + Rs. 50,000 = Rs. 60,000, so the shop pays Rs. 40,000 more and owes nothing else.
- **If Karots Suite doesn't work as promised** and we can't fix it or find a way round it within a reasonable time, we refund the part that doesn't work (Terms 9.2), whatever the table says.
- Refunds are paid within 14 days, the same way you paid.

8 · Paying in parts

- You may pay an advance at installation and the balance later. The amounts and the date are written on the Order Details.
- The **balance must be paid within 90 days** of installation. Until it is, updates, help and visits may wait while a payment is late, but your till keeps selling.
- The licence is fully yours only when everything is paid.
- **If the balance isn't paid within 90 days**, we remind you in writing and give you **14 more days**. If it's still unpaid after that, the licence ends and **Karots removes Karots Suite** from your computers. We first give you a full backup of your shop's data, which stays yours. Money already paid is not refunded, because after day 30 Karots keeps everything (section 7).
- We remove the software at the shop, or remotely only with your permission. We never delete or lock up your data.

9 · After year 1: renewing

- Renewal is **20% of your one-time price per year** and brings back updates, bug fixes and remote help for that year.
- If you skipped a year, you **just pay this year's renewal**. There's nothing to pay for the years you missed.

10 · New owner or new address

- **The shop is sold:** tell us in writing. The licence moves to the new owner for a **transfer fee of Rs. 5,000**, and the new owner signs a new agreement. Year 1, renewal and refund days carry on from the original installation.
- **The shop moves to new premises:** moving Karots Suite is free if we do it remotely, or the visit fee if we come.
- The licence can't be moved to a different, second shop. That needs its own licence.

11 · Reaching us

- **Monday to Saturday, 9 am to 6 pm**, except public holidays. We answer within **one working day**.
- **The till can't sell?** Call any day. We help as soon as we can.
- Phone or WhatsApp **0769626396** · email **adhnanmsa@gmail.com**.

12 · Shop rules: please do

- ✓ Give every person their **own login** and keep PINs secret. Change a PIN if someone may have seen it.
- ✓ **Open and close the till every day** and count the cash honestly. Over / short is how you spot problems early.
- ✓ Keep the **backup copy folder** (USB or drive) plugged in, and check on the Data page once a week that backups are being made.
- ✓ Take the USB home now and then, so a fire or theft doesn't take both copies.
- ✓ Use a **UPS** on the main PC. Power cuts in the middle of saving can damage data.
- ✓ Turn the main PC off properly, and leave it on during trading hours (cashier PCs need it).
- ✓ Keep the **install files** (karots-setup, install.conf) and your backups private. They hold your shop's keys.
- ✓ When something goes wrong, tell us **what you did, the receipt number and a photo or screenshot**. It makes the fix faster.
- ✓ Install updates from **Setup → Data → Updates** when we tell you one is ready.

13 · Shop rules: please don't

- ✕ Don't **copy, share, resell or give** Karots Suite to another shop. It is licensed to your shop only.
- ✕ Don't **change the PC's date or time**. Receipts, reports and support codes depend on it.
- ✕ Don't **touch the database** or the data folder directly, or let anyone else do it. Fixing that is charged.
- ✕ Don't install **other programs** on the till PC, and don't use it for browsing, games or downloads.
- ✕ Don't **share the owner's login** with staff. Give them a cashier or manager login with the rights they need.
- ✕ Don't run **two copies** of the shop, or restore an old backup over today's sales without asking us first.
- ✕ Don't let anyone you don't trust use **remote access** to the PC. We only connect when you ask.

14 · What we promise

- ✓ We never sell or look through your shop's data. It's yours (Terms 6 and the Third Schedule).
- ✓ We never update your shop without you pressing Update.
- ✓ We never stop your till from selling while you are within the payment times in sections 5 and 8.
- ✓ We quote before any paid work, and we answer within one working day (section 11).

15 · Standard prices

One-time prices include year 1 (section 1). The price agreed for your shop, with any discount, is the one in your Order Details. Prices may change for new orders and new work with 30 days' notice; prices already agreed don't change.

Karots Suite	Rs.
Core: till, stock, purchasing, money, reports, phone admin	**70,000** launch price 59,000
Pharmacy (comes with Product Plus and Alternatives)	10,000
